Summary Info

Country: **Kenya**

Survey: **DHS 2022**

Indicator: **Percentage of children 12−23 months who had received DPT 3 vaccination**

Levels: **National, Admin−1 and Admin−2**

Number of regions at selected admin levels:

	National	Admin−1	Admin−2
Number of Regions	1	47	300

Detailed information on the indicator:

DHS Standard ID	DHS Report Chapter	Definition
CH_VACC_C_DP3	Chapter 10 − Child Health	Percentage of children 12−23 months who had received DPT 3 vaccination

* For indicators with multiple versions, the app defaults to the 5−year period before the survey (unless specified otherwise), and unstratified age groups (total).

Estimate Consistency Check (National Level)

To ensure the accuracy of our indicator coding schemes, we highly recommend users to compare

app−calculated national estimates with the **DHS final reports**.

National estimate (from the app): **89.18 %**

National estimate (from DHS Final Report): **89.20 %**

Country	Survey Year	DHS Standard ID	Full Definition	Estimate	By Variable Label
Kenya	2022	CH_VACC_C_DP3	Percentage of children 12−23 months who had received DPT 3 vaccination	89.2	

* For indicators with multiple versions, the app defaults to the 5−year period before the survey (unless specified otherwise), and unstratified age groups (total).

Overall Sample Info

Total number of clusters: **1448**

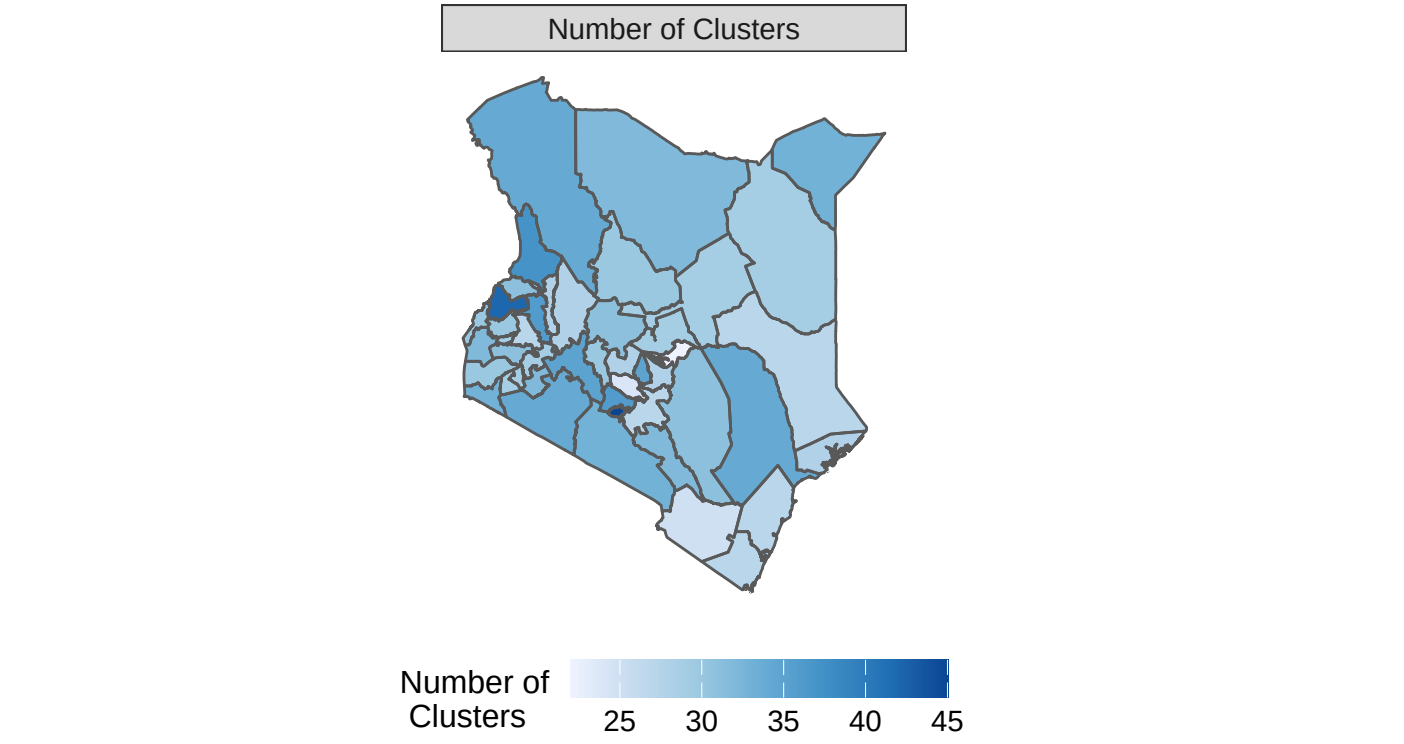

Total sample size: **3679**

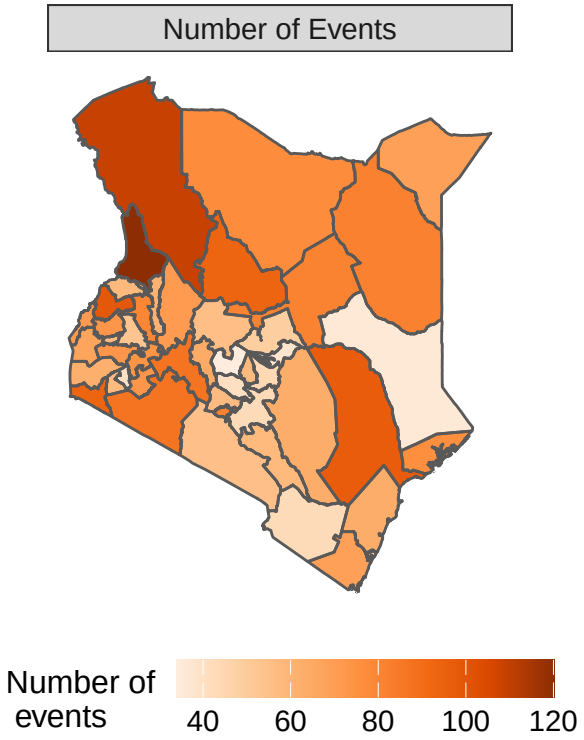

Total number of events: **3148**

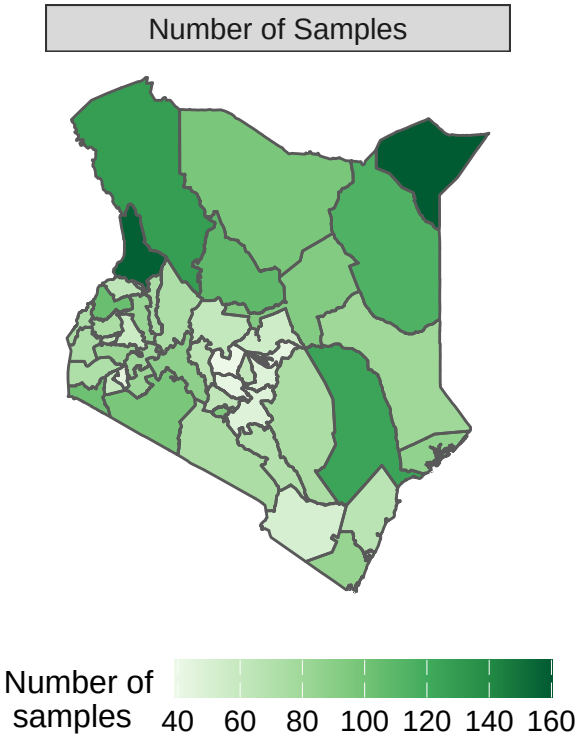

Number of regions without any data:

	National	Admin−1	Admin−2
Regions without Any Clusters	0%	0%	2.67%
